Installation Guide for AspxFormsGen MVC 5

This guide will show you how to install AspxFormsGen MVC 5. The installation is easy enough that most developers won't need this guide; you simply need to follow all the prompts given by the wizard during the installation. This guide is not specific to any version of this software; therefore you can use this guide for the Professional Plus and Express versions of AspxFormsGen MVC 5.

1. You need to unzip the compressed AspxFormsGen MVC 5 file to a folder of your choosing. After unzipping, go to the folder where you unzipped AspxFormsGen MVC 5, then *double-click* the **setup.exe** file to start the installation. See Figure 1.

Figure 1 Unzipped Files

2. The installation will load briefly showing the Preparing to Install screen, then jump right into the Welcome screen of the wizard as shown in Figures 2a and 2b respectively. Click Next.
